

Research & Innovation Office

We catalyze ideas to transform our future. Together.

CU Boulder's **Research & Innovation Office (RIO)** cultivates and supports collaboration, transformation and leadership in research, scholarly and creative activities.

Services

Office of Contracts and Grants (OCG)

OCG works in partnership with CU Boulder's faculty and staff to prepare and submit proposals, including budgets, for sponsored projects and external research funding.

colorado.edu/ocg

Office of Research Integrity (ORI) or Compliance

ORI ensures students, faculty and staff involved in research are compliant with regulatory requirements, upholding CU Boulder's commitment to scientific and ethical integrity.

colorado.edu/researchinnovation/ori

Research Development

This team expands research, scholarly and creative capacity by facilitating multidisciplinary collaborations and providing support in proposal development, writing and editing.

colorado.edu/researchinnovation/funding

Office of Industry Collaboration (OIC)

OIC helps faculty more easily collaborate with industry by supporting connections between companies and CU Boulder and cultivating new strategic opportunities.

colorado.edu/industry

Technology Transfer Office (TTO)

TTO helps translate discovery into impact through transparent, flexible intellectual property management services and partnerships with commercialization programs.

Other RIO Units and Initiatives

Grand Challenge

Our Space. Our Future. fuses Earth, space and social sciences to address the pace and pattern of changes for our environment, our resources and our planet.

colorado.edu/grandchallenge

AeroSpace Ventures (ASV)

ASV connects students, researchers, industry and government leaders to conduct research and create commercial opportunities for Colorado's aerospace community.

colorado.edu/aerospaceventures

Innovation & Entrepreneurship

This campus-wide initiative leverages one of the world's most vibrant startup ecosystems to foster a culture of innovation and high-impact entrepreneurship.

colorado.edu/entrepreneurship

Office of Postdoctoral Affairs (OPA)

The OPA serves as a resource for the CU Boulder postdoc community and affiliated national labs—providing postdoctoral training, career development and more.
